Professional Summary

Graduate with a degree in Computer Engineering hands-on experience in backend development, cybersecurity, and AI-driven applications. Skilled in Java, Spring Boot, Python, REST APIs, React, and MongoDB, with experience building scalable full-stack and security-focused systems.

Skills

- **Programming Languages:** Java, JavaScript, SQL, C++, Python.
- **Backend Technologies:** Spring Boot, RESTful APIs, Microservices(Basics).
- **Frontend Technologies:** React, Responsive UI Design, Bootstrap, HTML5, CSS3.
- **Databases:** MySQL, MongoDB.
- **Tools:** Git/GitHub, Maven.
- **Core Concepts:** DSA, OOPS, DBMS, ML, NLP.
- **Development Tools/IDEs:** Visual Studio Code, Eclipse IDE, IntelliJ IDEA, Linux.
- **Soft Skills:** Teamwork, Problem Solving, Critical Thinking, Adaptability, Time Management.

Education

1. **Bachelor of Engineering (Computer Engineering)** 2022 – 2026
   PES Modern College of Engineering, Pune (**CGPA:** 8.18 / 10)
2. **Class 12th - Maharashtra State Board** 2020 – 2021
   Adarsh Junior College, Pune (**Percentage:** 83.50%)
3. **Class 10th - Maharashtra State Board** 2018 – 2019
   Navin Samarth Vidyalaya,Talegaon Dabhade, Pune (**Percentage:** 87.40%)

Experience

Webmobi360, Web Developer Intern (Remote) Aug 2025 – Nov 2025

- Built and optimized web applications, ensuring responsive design and smooth functionality.
- Collaborated remotely to deliver features, fix bugs, and improve overall user experience.

Edunet, AI/ML Virtual Internship Jan 2025 – Mar 2025

- Gained hands-on experience in Machine Learning and Artificial Intelligence concepts
- Built and evaluated real-world projects such as classification models, recommendation systems, and model performance analysis using Python-based ML libraries.

Projects

CTI-MAF (Cyber Threat Intelligence MultiAgent Framework)

- Developed an AI-driven cybersecurity framework that integrates threat intelligence, network scanning, and machine learning to analyze security events and prioritize risks.
- The system performs automated port scanning, vulnerability assessment, and predictive threat analysis with a risk analysis dashboard.
- **TechStack** – Python, Machine Learning (Scikit-learn), Nmap, Flask/FastAPI, React, MongoDB, Pandas, Plotly, REST APIs.

Job Portal Application

- Built a full-stack job portal with secure authentication, job posting, and application tracking features.
- Developed REST APIs using Spring Boot and integrated MongoDB for efficient data storage.
- Implemented responsive frontend using React.js with seamless backend integration.
- **TechStack** – React.js, Spring Boot, MongoDB, REST APIs, Maven, npm, HTML5, CSS3, JavaScript

Certificates

- Google | Cybersecurity Specialization
- Cisco | Network technician Career path
- NPTEL | Programming in java
- Zscaler | Zero Trust Associate Global Certification

Achievements

- Google Cloud Arcade – Standard Milestone Achiever (2024)
